AUSTRIAN PINE is coming to the foreground as a very good dual purpose tree—an excellent Christmas tree which will go on and make timber comparable in growth to the Red Pine

The Austrian Pine is more resistant to insects than either Red or Scotch Pine and requires less trimming to make a saleable Christmas tree. The S. C. S. has allowed payment on Austrian Pine, but has denied payment on Scotch. We feel the Soil Bank program will be the same.

## TRANSPLANTING INFORMATION

The figures 2 - 1, 2 - 2, shown first, represent the number of years the trees have been in seed beds, number of years in transplant beds, and the number of times transplanted. The first figure indicates the number of years the trees remained in the seed bed before being transplanted. The second figure indicates the number of years the trees remained in the transplant bed. The total of the figures indicates the age of the tree, and each dash represents one transplanting. The total of the figures add up to the age of the tree. Thus 2 - 2 is a 4 year old tree which remained in the seed bed two years, was transplanted, and remained in the transplant bed two years.

## TERMS

No order can be booked for less than 50 of one variety and size.

50 and 500 of a size and kind sold at the 100 and 1000 sale price respectively.

Evergreens can be shipped after September 15th.

Orders may be booked one-fourth cash, balance C. O. D.

We are in short supply on Scotch Pine. Would advise placing your order early to avoid disappointment.

All our trees are graded, culling out the undersize, light caliper, and damaged roots.

Our seedlings are grown in high humus—low density beds, assuring sturdy stems and fibrous roots.

## AN INVITATION . . .

Armintrot's Evergreen Nursery is located a half-mile east of Allegan on Ave. 113. When you are in the Southwestern Michigan area, we urge you to visit our nursery to see how our seedlings and transplants are grown.

Allegan is located on two main highways, M-40 and M-89, midway between Kalamazoo and Holland. It's a pleasant place to visit with plenty of good hunting and fishing nearby . . . and we most sincerely invite you to drop in and personally inspect our nursery and stock.
